

Dear Buyers,

In accordance with the Rules for Cargo Transportation by Road approved by Order of the Minister of Investments and Development of the Republic of Kazakhstan No. 546 dated April 30, 2015, when issuing a route sheet and waybill in hardcopy for a cargo vehicle with the technical permissible maximum weight of more than three point five (3.5) tons, the carrier and the shipper shall ensure their registration in the Unified Transportation Document Management System (hereinafter the UTDMS):

route sheet – before the start of a shift (a run);

waybill – before dispatching the cargo.

Due to the introduction of amendments to the Code of Administrative Offences, administrative liability for the non-compliance with this requirement will enter into force from March 13, 2025 and will entail a penalty of up to 60 MCIs, and up to 80 MCIs for repeated violations.

For registration of a waybill by the shipper, it is necessary to register the Carrier and the Consignee (Buyer) in the UTDMS. Registration in the UTDMS is carried out using an Electronic Digital Signature of a legal entity or individual.

If it is impossible to issue and register a waybill and route sheet in the UTDMS system due to the lack of registration of the Carrier and the Consignee (Buyer) in the UTDMS system, the Partnership cannot guarantee timely shipment of the goods and disclaims responsibility for possible delays in shipment.
